CAREER DAY

A place for the
very best

The Best Education

With the gradual normalization of academic activities, we resume one of the most important initiatives for the career path and professional success of our students.

It is an occasion that we want to use to reinforce ties with employers and partners of the School, to develop new partnerships and projects, as well as to reflect on the future of the legal professions.

For undergraduate students, this opportunity often represents their first contact with recruiters and employers, in a decisive step towards choosing their career path. For master's and doctoral students, this may be an occasion for closer contact with the best national recruiters and a valuable means of furthering their professional path and skills.

With NOVA School of Law Career Day, we want to show benchmark employers not only the excellence of our students and education, but also how we merge innovation and market demands, in an increasingly innovative way.

Mariana França Gouveia
Dean

**We look to the
future and prepare
in anticipation**
