Regulation No. 737/2024

APPROVES THE REGULATIONS FOR THE 2ND CYCLE OF STUDIES LEADING TO A MASTER'S DEGREE IN MARITIME LAW AND ECONOMICS. OCEAN GOVERNANCE.

Faculty of Law, NOVA University Lisbon (NOVA School of Law)

NOVA University of Lisbon, through the NOVA School of Law (NSL), in conjunction with the NOVA School of Business & Economics (NOVA SBE), establishes a programme of study leading to the Master's degree in Maritime Law and Economics. Ocean Governance (hereinafter referred to as MDEM).

The Master's Degree in Maritime Law and Economics: Ocean Governance is duly accredited by the Agency for the Evaluation and Accreditation of Higher Education and registered with the Directorate-General for Higher Education under registration number R/A-Cr 205/2022, dated 6 September 2022.

18 June 2024. — The Dean, Prof. (PhD) Margarida Lima Rego.

Preamble

Following the process of establishing the degree programmes at the NOVA School of Law and NOVA SBE of NOVA University Lisbon, the regulatory provisions concerning the Second Cycle of Studies Leading to a Master's Degree in Law and Economics of the Sea: Ocean Governance — Master's in Law and Economics of the Sea: Ocean Governance.

The MDEM was accredited by the Agency for the Evaluation and Accreditation of Higher Education (A3ES), with effect from 31 July 2022, for a period of six years without conditions, and is registered with the Directorate-General for Higher Education (DGES) under registration number R/A-Cr 205/2022/AL01, dated 26 July 2023.

In accordance with the technical standards published as an annex to Order No. 10543/2005 (2nd series), of 11 May, in accordance with the provisions of Articles 12 and 43 of Decree-Law No. 42/2005 of 22 February, as amended by Decree-Law No. 107/2008 of 25 June, the regulatory provisions for the Master's Degree in Maritime Law and Economics are hereby published.

Ocean Governance. Pursuant to Article 76 of Decree-Law No. 74/2006 of 24 March, as currently in force, and with the authorisation of the Rector by order of 12 June 2024, the curriculum structure and study plan for the Master's programme are also published, and shall come into force in the 2023/2024 academic year.

The Master's in Law and Economics of the Sea: Ocean Governance represents a natural evolution of the existing, highly successful degree programme (Master's in Law and Economics of the Sea: Ocean Governance). Recognising the ocean's strong interdisciplinary dimension and the role it plays in major global challenges – from climate to food, from energy to the protection of biodiversity – and considering the mission of the two academic units at NOVA University of Lisbon to train students who will make an impact on the world, combined with the desire to continue attracting students from a wide range of academic backgrounds, particularly international students, and in attracting more students with a background in economics and management, it was decided to expand the range of course units on offer in these scientific fields.

The CE is aligned with the United Nations 2030 Agenda, in particular with Sustainable Development Goal 14, in line with the membership of the NOVA School of Law and NOVA SBE in the United Nations Global Compact, the European Green Deal and the European Union's Strategy for a Sustainable Blue Economy, as well as the National Maritime Strategy 2021-2030. It aims to train professionals who are attentive, proactive and possess the critical and creative skills to contribute to the development of the ocean, ensuring sustainability, whether in the public, private or nonprofit sectors.
